Councilman Tantalo stated it is actually a lot more than \$7,000,000 and the only reason someone would annex in is because the Town can offer sewer. Councilman Tantalo stated that the town worked to get the Sewer Certificate of Convince and Necessity to provide service to that area and the authority to offer sewer is very different from operating sewer a sewer system. Mayor Vargus reported on legislation a few years ago that attempted to move municipal elections to November. Town Secretary Asbell reported that there were several "under votes" in the most recent election and that could have a significant cumulative effect on the municipal positions on a November ballot. MEMORANDUM

TO: Town Council CC: Linda Asbell

RE: 2018 Proposed Budget

I am submitting the following as the fiscal 2018 Proposed Budget. The document contains the General Fund and Utility Fund revenue and expense line items as well as a list of proposed projects. We have two additional dedicated funds which I have broken out separately - the Road Maintenance Fund and the Debt Servicing Fund. Many of the costs and revenues are not materially significant and vary little from year to year. I have identified the primary discretionary revenues and expenses and highlight them in blue in the budget sheets. Below, I summarize the important issues in each fund.

GENERAL FUND

General Fund revenues are front loaded, as we receive approximately 80 percent of the anticipated revenues in December and January. Throughout the year we then draw down our funds as we pay for town maintenance, salaries, street lights, mowing, etc. We also typically receive revenue from two to five new home building permits each year, but this occurs at random, unplanned times. Sales tax receipts are the sole revenue stream that the Town receives on a regular monthly basis.

The current fiscal 2017 year-to-date figures are in line with our planned budget. Thus, they serve as a baseline for many of the 2018 budget estimates.

Property Tax Revenues – the preliminary market value appraisals from DCAD for existing properties are showing approximately an 11 % increase over last year. This is prior to any appeals and prior to any new exemptions. I expect that the final certified totals will show a year-on-year increase of approximately eight percent when the roll is finalized. In addition, new construction should add approximately \$4,000 to our tax base.

Tax Rate - The budget assumes that we will continue with the same \$0.25 M&O rate (as we have done for 40 years) and I am not proposing any changes to the \$0.05 debt servicing rate. The proposed tax rate is unchanged from prior years.

Sales Tax Receipts for the current year are currently 12 percent ahead of the \$30,000 which was forecast in the 2017 budget. In keeping with conservative budgeting practices I am assuming \$34,000 for fiscal 2018 (the ending amount for 2017).

On the expense side of the budget, items of note include:

- (1) The budgeted legal fees have been increased to account for the litigation costs, potential development related costs which may ultimately be reimbursed at a later date, and ordinance related costs associated with updating our zoning and subdivision ordinances.
- (2) The budget for Town Hall Improvements have been increased to \$4,000. This increase is earmarked for replacing the front-door and making improvements to the hallway to bring the building into compliance with building codes and ADA standards.
- (3) I have included \$10,000 for the parks. This is a slight reduction from the 2017 budget. The town is experiencing a significant new inflow of many small children the playground must be updated. We must continue this. Further we must make some effort to plan and execute a vision for Witt Park.
- (4) Drainage Improvements I have allocated \$5,000 to perform needed improvements to the Peninsula and Shoreline intersection. We need to install a box culvert at 335 Peninsula to stop the storm water from over-flowing the bar ditches and inundating Shoreline. This problem has been exacerbated by the lack of drainage ditches on the east-side of Shoreline.

UTILITY FUND

In contrast to the GF, the Utility Fund revenues are back-loaded; we earn significantly more revenue in the summertime July – September 4th quarter. However, on the expense side, the UF incurs large annual payments at the start of the year (the administrative fees, insurance, licensing fees, etc.). As in past years, the majority of our CAPX was incurred early in the year when the water system demand was minimal and operational safety margins were the greatest. Thus it is not unusual for the year-to-date income to be negative at this time in the year.

Comparing our current revenue results to the same time period last year, our water revenues are approximately three percent above the prior period, while sewer and garbage are approximately ten percent higher due to pre-payments (just timing related).

The UF incurred significant engineering expenses related to impact fees in 2017. In addition, the CAPX was also elevated due to our acquisition of the ground storage tanks, pressure tanks, and pressure pumps which we have integrated into the system. We incurred a significant amount of sewer related repairs in 2017. This was due to (1) two large pipe fractures on Highridge and Peninsula that required large equipment, (2) a significant sewer plant lift-station multiple-motor failure caused by unflushable wipes, and (3) chronic failures of the Stowe lift-station.

In response, I am proposing increased expenditures on sewer and water line scheduled maintenance, as well as a capital improvement project to demolish and build a new lift-station on Stowe Lane.

I look forward to your comments;

Mark I Vago
